Talesun Solar Supplies 96 MW of Solar Modules to ColGreen North Shore LLC in California, USA

Munich, 20. December 2016: Zhongli Talesun Solar, a leading international producer of high quality solar modules and cells, announced that it has supplied 96 MW to ColGreen North Shore LLC - for its solar project in California, from Talesun Solar Thailand factory.

In accordance with the ColGreen North Shore Contract issued thereunder, Talesun Solar will supply high-efficiency poly-crystalline modules approximately 96 MW in capacity to customer through January 2017. Talesun Solar modules will be used to power the project ColGreen North Shore in the US.

"We are proud to have reached another significant milestone through this supply agreement with ColGreen North Shore project. This 96 MW project will further strengthen our position in the US market," Mr. Sheng Hao, Senior Vice President and Member of the Executive Team commented, "Talesun Solar's product reliability are reasons why we have selected as partners of Northshore Group for this project."
