

PRESS RELEASE

## **Zhongli Talesun Successfully Breaks into Indonesia Market**

Zhongli Talesun Solar Co., Ltd shipped the first batch of PV modules to an Indonesian Company - PT. Kompasindo Sembada Infotech on July 18<sup>th</sup>, which signaled Zhongli Talesun's successful entry into the Indonesia PV market.

Southeast Asia has superior radiation conditions, numerous islands and good policy, which makes it a huge potential emerging PV market, especially for the independent PV system. The success of shipment is the best proven record for Zhongli Talesun's unremitting effort to seek for new PV market. Talesun's high-quality products and belief of customer-first are fully appreciated by the Indonesian client. It is also reported that Zhongli Talesun will sign a megawatt-scale contract with another Indonesian company in August, and delivery is expected to be finished within 2012.

Zhongli Talesun has been seeking and developing other Southeast Asia PV markets, such as Thailand, Malaysia, and Singapore. We firmly believe that Zhongli Talesun will make greater progress in the near future.
